GOLD BEING GATHERED IN THE HOOSIER STATE.

Excitement in Indiana and Land Values
Increase Greatly—The Garrett Process at
Paducah Successful—Improvements
at Salem—Letters From a
Mining Engineer.

THE GOVERNMENT REPORT TO BE PUBLISHED AT ONCE.

"Gold! Gold! Gold!" The siren's cry is throwing Indiana into a fever. Already it is predicted that Hoosierdom is to become the placer gold mining state of the union. Lands back in the counties of Morgan, Brown, and Johnson that two weeks ago had been purchased for \$3 to \$5 an acre have suddenly gone up in value and their owners are figuring on taking \$25,000 to \$250,000 of gold out of every acre. A hydraulic gold mine is in operation within twenty miles of the gilded dome of the Indiana state house.

Geologist W. S. Blatchley is noted for his conservatism, making a great deal of stock in the work that is being done. He says: "We know that men have been digging for gold in the Indiana hills. I have seen some time with them and they have washed out \$1 to \$2 a day with the crudest methods—the pan. They have made livings, raised big families, bear testimony to the fact that they have washed gold, for we have never done any other work. If these men can earn a day washing out gold with a crude rocker I don't see why placer mining would not be highly profitable if the right machinery was used."

During the last week "Dead Holler," a hilly country near Martinsville, has been adding to the presence of gold. Men, operating a crude rocker, took out \$20 one day. That, however, was an exceptional day's work.

W. H. Taylor, the California miner, built the hydraulic mine and, he says, the Indiana dirt is of the same character that is found in California, except that it is no cement in it, which makes the operations in California costly. He thinks that there is a great deal of dirt in the Indiana hills that will run over \$1 a yard. He says that with the latest development dirt can be handled now that it cost but 4 cents a yard, and can be handled at a big profit. Geologist Blatchley holds the theory that the gold was brought down by the glaciers. It is found where the glaciers from the north bay ended, and deposited at banks of conglomerate. He says that while the deposit, of course, is the heaviest gold bearing, all of the northern half of the state was strewn with gold by the glaciers. Royce holds that of that territory can be worked profitably.

A private letter from Paducah, Mr. Lawrence Cruce, accompanied by samples of the work accomplished by the Garrett process, was received Monday. The concentrates are first class, consisting of mixed lead and zinc. The ore was from the Rosi Claire, a mill tailings and was probably extremely low grade. The work is good in every respect. That proportion of the mineral

is saved or what per centage lost is as yet unknown to us. The general appearance of the work, however, is very fine. The Seacoast company are to be congratulated. The sample of concentrates can be seen at the Reed Mining company's office.

Notwithstanding the worst season in years, so far as weather and roads are concerned, the people of Salem, with characteristic enterprise, have been planning to make their city more attractive than ever. The recent fire has been a blessing in disguise. Larger and handsomer business blocks will take the place of those burned, and the hustling, enterprising residents will have a model residential, business, and mining town.

With the tremendous advantages Salem enjoys in her near access to the Cumberland river, so far as the shipment of ores, grain, tobacco, etc., at cheap rates of freight are concerned, she can really snap her fingers at the railroad.

Now that spring, with its usually pleasant weather is at hand we expect to chronicle many important movements in Salem's mining field.

A beautiful country, a charming vista down the great Salem Valley, with its many happy homes, it is an ideal locality for either the business man or the grain or stock raiser.

We haven't a turnpike to Salem, much as we need it, but Salem and Marion, by joining hands and money, can make one, and make one mighty soon if they both set out to.

Why not do it?

Mining Engineer May, of St. Louis, who has been in Marion several weeks, sends the following to the Press:

In regard to the Marion mining district there are several things which differentiate the camp from other localities. In the first place we have the zinc ores corresponding to those of the Missouri and Wisconsin fields, excepting that the "dry bone" or zinc carbonate exists in greater quantities, and in one case (the Old Jim) forming the main ore body.

Oxidized ores (carbonates, silicates and oxides) occur in almost all localities, but these ores are usually local in extent and small in volume, and the deposit never extends below "ground waters." Extensive deposits of oxidized ores in a country like this would indicate that the original ore bodies from which they were derived were large and extensive. Accordingly, after these oxidized ores are penetrated further work would develop sulphide ores, fully if not more extensive and valuable.

Secondly, we must not forget that although much prospecting has been done, Marion is not yet a mining town, but this is as it should be, because this vicinity should be well prospected before

extensive mining could be done. The nature of the veins here permit prospecting to a great extent the vertical veins can be cut at slight expense and shafts can be driven directly on the vein.

On many properties the vein can be traced on the surface, and in such cases drilling could be done, for a churn drill can give a good account of the character of the material penetrated, and the cost of drilling is far below that of shaft sinking.

One thing Marion needs, that is a mining class; the work to date has been well done, but a mine must be worked by miners, men who were "born in a mine." There are practically no men, with years of underground experience in the district. The mining class includes mining engineers. Many problems will arise here; the question of pumping at the lowest cost will alone be of prime importance, for at present it appears all our mines will be more than damp, they will be very wet. The question of economical methods, obtaining the largest output with the smallest expenditure of power, the methods of "attack," timbering, concentrating and many other subjects demand the careful attention of men who can deal with those problems. Any of us can sink and timber a shaft; the mining engineer is the man who does it quicker, better and cheaper than we do.

What Marion does not need is a boom. The property owners can not afford to demand exorbitant prices for land, because mining companies can not afford too high a price; they put all of their money into the mine usually before ever gaining a cent in return, and they must purchase property at a less value than the estimated ore contents are worth or all their improvement is a dead loss. The farmers owning mineral lands should remember this.

In order that mining can be carried on in Crittenden county the roads must be improved. Nothing gives a visitor in a new locality as good an impression as excellent roads. If you were an investor and came here to look at a mine five miles from Marion what would you think about getting your ore to the railroad? All mines can not have spurs from the main line of the railroad; many mines must team their ore to the nearest tracks, and this can not be done except over good roads. The material for good roads is in this country lying beside the roads. A good road is not a heap of rock, nor clay, nor both piled up and smoothed over. Roads must be built from bottom to crown, with proper foundations and covering, culverts must be built and kept up and side ditches for drainage are one of the most important features of a road. Good roads would benefit the farmer as much as the miner, he saves horseflesh, he saves time, and puts himself much closer to the markets. Bills are pending in congress to appropriate money to assist in building county roads, to facilitate the carrying of mail. Remember this money will be distributed according to the amount raised by the State or separate counties. The more the county subscribes the larger appropriation is given them. Let Crittenden county begin now and show what they can do alone, and assistance will surely come.

L. M.

There has just been handed in for early publication by the U. S. Geological Survey a preliminary report on the Western Kentucky mining district. This will deal with the broader economic problems of the district, and its publication will precede the publication of the detailed and illustrated report now in course of preparation by six months or more.

The advisability of storing nitro powders in mine workings is brought prominently into notice by the introduction recently into the Utah legislature of a bill prohibiting the storage of powder in the mines, presumably as a result of the recent explosion in the Daly-West mine at Park City, in that state. The opinion of mining men is about equally divided on the subject, some managers seeing no disadvantage or danger in the practice, others being of different opinion. The fact that large amounts of nitro powders are daily consumed in mines does not appear to be sufficient reason for storing it in large quantities in underground workings without taking the precautions necessary to avoid a disaster similar to that above mentioned.

There's a splendid opening on fluor spar carrying some lead ore some six miles from this city on the direct road between Salem and Marion. If Mr. G. W. Eaton, the owner, would only be contented with a good, strong price, for the fifty odd acres, there would be another producing property added to our already long list. Mr. Eaton tells us that he intends starting at mining work on this place the coming week. This vein ought to have a good strong company under it and the shipments would surprise us. Desultory work never pays any one, especially in mining.

The Kentucky Fluor Spar company has purchased the output of the Corn property, operated by the Givens Bros. of Providence. It is understood that the amount of fluor spar raised the past season was very satisfactory to the operators, and that carbonate of zinc has been exposed in one or more of the openings made. The ground in the immediate vicinity of the work already established is honeycombed with fluor spar and somewhere near there a large body should be found.

The Press has it from unquestioned authority that the United States Geological Survey will take up work in Pope and Hardin counties, Illinois, and very probably Union county also, this summer.

This will prove of immense benefit to the mining men across the Ohio river, the country being part and portion of the Western Kentucky mining district, the distance from Marion being 12 miles to Cave-in-Rock.

Present conditions in the busy world of progress and industrial development tend to emphasize the fact of the value of schools of mining, and the necessity for high technical training is recognized as never before. The dependence of the industrial arts upon the metals is so absolute and the gigantic structural undertakings of modern times so numerous that the need for men of adequate technical education is apparent throughout the mining world.

"Old Hickory," the brand of goods that has made so many of our mining men feel that they owned the earth is about exhausted. Without Captain Robinson turns his attention from mining to distilling we shall have to chronicle the passing of another old landmark generally considered necessary in deep mining.

Should the "S. & S." brand of coal, (Sayre & Steinmiz) become as general a favorite as these gentlemen are socially, the "entries" will have to be made very wide and a whole lot of them,

Nearly Every Hour

Parties are made up nearly every hour during the day to inspect the city lots in the Reed Addition to Marion.

The great ore veins that cross the Princeton road and run clear through the 123 acres are plainly visible and very interesting.

These ore veins are going to pay most of the expenses for the lot buyers who live in their own houses on their own land.

A city lot and 1000 shares of stock are so easy to own, Fifty Dollars pays for both and either one is worth a great deal more, even before the mines are opened.

Houses on these lots are eagerly snapped up at a rent that will support a pretty good sized family in pretty good shape.

Can you possibly imagine a better way of investing fifty dollars than in one of these city lots and 1000 shares of stock.

The time is growing short to buy at the price named. The first house will be up and a family paying rent for it pretty soon.

Remember its now but \$50.

The Reed Mining Co., Inc.
Of Marion, Ky.

The following table gives the average price of "Jack", zinc blende, for the last four years at Joplin:

1902 average price	\$30.33 per ton.
1901 average price	\$24.21 per ton.
1900 average price	\$26.50 per ton.

The highest prices during the same period were:

1902 highest price	\$42.00 per ton.
1901 highest price	\$34.00 per ton.
1900 highest price	\$38.50 per ton.

Andrew Carnegie remarked that next to steel the best investment was real estate. And he might have said that the real estate investment was sounder than steel. Real estate can not be lost unless the owner borrows money on it and can't pay. It is the only non-perishable investment.

The Kentucky Fluor Spar company were the winners in the Presbyterian church spelling bee at the opera house. Messrs. Harry Haynes, John Blue and Clem Nunn, all officials of that company, passed under the wire neck and neck.

H. I. Keene, of Chicago, who was here a few weeks ago, overseeing the erection of concentrating tables at the Old Jim mine, returned to Marion on Monday and will probably bid on the construction of two complete separating plants to be erected this spring.

The recent bad weather has put many Arkansas miners on waiting orders; in fact very many of their prominent mining enterprises have been postponing activities for a month or more, waiting for settled weather.

Cort Pierce's visit to Indiana recently was not in the interest of gold mining, as at first stated. Mr. Pierce was Miles distant from the gold region described in another column.

The Keystone Mineral company have purchased what is known as the Carter farm, some five miles from Marion, and a short distance from Levia's. The Columbia vein evidently crosses the Tolu road a short distance below the creek this side of Salem church and passes through their property. Messrs Jas. D. Hopewell and Wm. H. Hopewell, of Sturgis, with Mr. H. Lee Upton, of Louisville, are the gentlemen who represent the Keystone company. They are very much pleased with their purchase and as soon as the weather will permit development work will be started and they anticipate uncovering a paying ore body at little expense.

Judge Pierce and Col. Roberts are really the "worst" spellers we ever listened to. They represented the two parties in the late spelling bee. The Reed Mining Co's side, however, was the winner.

"Be good and you will be loved," originated with Mark Twain. Mr. Newkirk is evidently a disciple of Marks'. Anyhow he don't appear to have been lonely some lately.

The circuit court this session will return answers to the puzzle, how to get mineral lands for "hot air." Most of the replies will go to Indiana.

Two hours of editorship, and ex-Senator Deboe will realize what a snap he had in Washington.

We still have a Senator in this district. The Senator Mine.

THREATEN TO SUE.

Dixon, Ky., March 7—The city council of Dixon, has refused to grant liquor license for the ensuing year. This action was taken without giving any warning to the saloon men, and they are up in arms as a result. They threaten a suit to determine the right of the council to take such peremptory action.

A NOBLE SENTIMENT.

Senator Hoar's Beautiful Tribute to the Southern People.

A portion of Senator Hoar's speech the other day before the Union League club of Chicago overlooked in the telegraphic reports, touched in the following interesting manner on race conditions in the south:

"I know how sensitive our southern friends are in the matter of social equality and companionship and I think I might say fairly and properly—and that perhaps I have a right to say it—that it is not wise for the people of the north to undertake to deal rashly or even to judge harshly of a feeling so deeply implanted in their bosoms.

Time, the great reconciler, will reconcile them to that, if in the nature of things and in the nature of men they ought to become reconciled to it. And if in the nature of things and the nature of men time does not reconcile them it will be a sign that they ought not to become reconciled to it, and that some other mode of life for them must be devised.

Now, my friends, having said what I thought to say on this question, perhaps I may be indulged in adding that, although my life politically and personally has been a life of almost constant strife with the leaders of the southern people, yet as I grow older I have learned not only to respect and esteem, but to love the great qualities which belong to my fellow-citizens of the southern states. They are a noble race. We may well take pattern from them in some of the great virtues which make up the strength as they make the glories of the free states. Their love of home, their chivalrous respect for women; their courage; their delicate sense of honor; their constancy, which can abide by an opinion or a purpose or an interest for their states through adversity and prosperity, through years and through the generations, are things by which the people of the more mercurial north may take a lesson. And there is another thing—covetousness, corruption, the low temptation of money, has not yet found any place in our southern politics.

Now, my friends, we can not afford to live, we don't wish to live and we do not live in a state of estrangement from a people who possess these qualities. They are friends of ours, born of our burning flesh, of our flesh, blood of our blood, and whatever may be the temporary error of any southern state I, for one, if I have the right to speak for Massachusetts, say to her: 'Entreat me not to leave thee nor to turn from following after thee; for where thou goest I will go, and where thou stayest I will stay also; and thy people shall be my people, and thy God my God.'

FLOWERS FOR MCCREARY.

Senator McCreary's desk was loaded with flowers from Kentucky admirers when he took his seat in the Senate. He is fortunate, also, in having secured a good seat in the second row from the back, rather near the central aisle, and next seat to Senator Clark, of Montana.

The swearing of Senator McCreary was without incident, except that he was applauded by the few Kentuckians who were in the galleries. He received a cordial welcome from his colleagues on both sides of the chamber, many of whom knew him well when he was serving in the House.

\$32.85 TO CALIFORNIA.

Daily, from Feb. 15th to April 30th, the Illinois Central railroad will sell tickets from Evansville to all California common points for \$32.85; tourist sleepers every Tuesday and Friday from Princeton, Ky., to Los Angeles, San Francisco and intermediate points.

INDIAN SUMMER.

The Original Meaning—The Horrors Summer Brought to American Pioneers.

PEACE ONLY IN THE WINTER.

The original meaning of this phrase, Indian Summer, is not very generally understood. To the ears of our forefathers, it brought a chill of horror in its terrible possibilities. During the long continued Indian wars, the first settlers in the then western country enjoyed no peace excepting in the winter season, when owing to the severity of the weather, the Indians were unable to make their excursions into the settlements of the pioneers. The setting-in of the winter was therefore hailed with joy by the little communities, as, through the spring and early fall the people had been cooped up in the little uncomfortable forts, subjected to all the distresses of Indian attacks. At the setting-in of winter, then, all the farmers excepting the owner of fort removed to their cabins on their farms, with a feeling of comparative safety, and set about preparing for winter, gathering corn, digging their potatoes, fattening their animals and repairing their cabins.

It, however, sometimes happened that, after the onset of winter, the weather would become warm, the smoky time commence, and this would last for quite awhile; this was the Indians' summer, as it afforded another opportunity of visiting the settlements with their destructive warfare. The melting of the snows saddened every countenance, and the genial warmth of the sun chilled every heart with horror; the apprehension of another visit, from the Indians was distressing in the highest degree, and too often, the worst fears were realized. Towards the latter part of February, there was commonly a fine spell of weather, during which the snow melted away; this was denominated "powwow days;" from the supposition that the Indians were then holding their war councils, and planning their spring campaigns against the settlements of the whites. Experience often verified these conjectures by the most horrible actualities.

It is easy to imagine what losses must have been sustained by our first settlers. It was not the full measure of their trouble that they risked their lives and often lost them in subduing the forest and turning it into fruitful fields; but, compelled to leave them in a deserted state during the summer season, a great part of the fruits of their labors was lost; their sheep and hogs were devoured by wild animals; horses and cattle were often let into the fields through fallen fences, and whole crops of corn were often destroyed by squirrels, raccoons, and other depredators. Every man was a soldier, and from early spring until late fall, was almost continually in arms.

Murder in Henderson County.

Near Smith Mills, in Henderson county, Allen Melton shot and killed his sixteen year old step-daughter, and probably fatally wounded Mrs. John Culver, his wife's sister. When pursued by a posse and brought to bay in a barn Melton attempted to commit suicide, by swallowing Paris green and by shooting, both attempts being unsuccessful. He was lodged in the Morganfield jail and was subsequently taken to Henderson. The shooting was the outcome of domestic troubles. Melton and his wife had agreed to separate, and Mrs. Melton had gone to the home of her sister, Mrs. Culver.

NEWS OF THE WORLD.

It is stated that the population of Greater New York is 3,732,903.

Senator McCreary has appointed as his private secretary Mr. H. B. Cosby of Dixon, Webster county.

It is expected that between 300,000 and 400,000 men will be thrown out of work on May 1 as a result of troubles in the building trades.

James J. Corbett and James J. Jeffries have signed articles to meet in a fight for the world's heavy-weight championship. The fight will take place in California some time in June or July on a date to be selected later.

Secretary of the Navy Moody has decided that the three 16,000 ton battleships recently provided for shall be named Vermont, Kansas and Minnesota. The two new 12,000 ton battleships will be named Mississippi and Idaho.

About seventy-five thousand people witnessed the celebration of the Pope's coronation anniversary at Rome, about one thousand of whom were Americans. The event was imposing and the pontiff declared after the close of the ceremonies that it had surpassed all his expectations.

The Fifty-seventh congress adjourned at noon Wednesday. The customary demonstration in honor of the retiring Speaker was given trimmings of frost by Democratic members, who refused to join in the applause when the resolutions of thanks to Mr. Henderson were read. President Roosevelt sent a sarcastic message to the Senate, commending it for the admirable performance of duty during the session.

Gov. Beckham has determined to settle the question of his eligibility to re-election, and to that end has arranged to file a test suit. He has made a formal demand of Chairman Young to place his name

on the ballot as a candidate for governor before state democratic primary. Mr. Young has suggested that legal steps be taken to determine his eligibility, and a mandamus suit against Mr. Young and the state committee was filed in Woodford county. It will be decided as soon as practicable and will then be taken to the court of appeals for final decision.

At an important meeting of the Miscellaneous Corporations committee of the Kentucky Exhibit Association, it was decided to recommend to the General Finance committee that 20,000 souvenir buttons be ordered, bearing the Kentucky building with an appropriate phrase, and to be sold at \$1 each. The General Committee will likely approve the plan. Beneath the building will be the words: "It's Part Mine."

Gen. Simon Boliver Buckner in discussing the presidential nominations for 1904 said that the Democratic party would continue to be under the influence of Hon. W. J. Bryan in 1904, and that he could beat any ticket the Democrats could put out. He said that Judge Parker, of New York, was receiving more notice than any one else just at present for the nomination, but that he stood no show whatever of getting it.

Another important change in the government service involves the resignation of Gov. Merriam as chief of the Census Bureau and his succession by Representative David Mercer, of Nebraska, who was defeated for congress by the bitter animosity of Editor Rosewater, of Omaha. Mr. Merriam, it is understood, expected to be selected for the position of Secretary of the Department of Commerce and Labor, and when Mr. Cortelyou was awarded that portfolio immediately accepted an offer from a New York commercial agency.

MONEY FOR KENTUCKY.

The general deficiency bill, which was signed by the president has in it the Kentucky war claim for \$1,313,999.05. The officials of the treasury department say that an order for the money will be sent to the commonwealth of Kentucky at once.

COL. ED. P. THOMPSON DEAD.

Col. Ed. P. Thompson died at Frankfort last week. He had been prominent in the state for many years. He was state superintendent of instruction under Governor Brown, author of several text books, custodian of state buildings for four years, historian of the Orphan Brigade and at the time of his death was engaged in compiling the roster of Confederate soldiers. He was noted for his courage in the Southern army.

THE WORK OF CONGRESS.

The appropriations made by the session of congress which closed last week aggregated \$753,484,018 against \$800,624,496 for the last session. The total for the entire congress thus footed up \$1,554,108,514, or something more than one hundred millions in excess of the total appropriations for the Fifty-sixth Congress. The total for this congress being \$1,440,489,488.

The number of bills introduced during the Fifty-second congress aggregated 17,500, of which 3,918 were reported and more than 2,000 passed. The House calendar is cluttered at the close of this congress than it ever has been before, only seventy-eight bills remaining undisposed of.

GOV. BECKHAM ELIGIBLE.

Judge Cantrill, at Versailles, decided the test case brought in the Woodford circuit court, that Governor Beckham is eligible to re-election and granted a mandamus requiring Chairman Young to place the name of Governor Beckham on the ballots to be used in the Democratic State primary. The case will be appealed.

WHISKEY 41 YEARS OLD.

E. H. Daniel, the veteran groceryman, has what is the oldest whisky in Princeton and probably in Kentucky. A quart bottle has been on his counter since he opened his store for business, in 1870. The bottle bears this label, in Mr. Daniel's writing: "Kentucky Whisky. Was put in this bottle the night that E. H. Daniel and brother moved into this house, February 24, 1870." As the liquor was eight years old when put into the receptacle, it is getting along toward forty-one years.—Princeton Banner.

BRYAN WILL NOT BOLT.

The Hon. Wm. J. Bryan, in an interview denied that he will lead a revolt from the Democratic party in case the gold Democrats capture the next national convention, as was reported from New York.

It was said he would bolt the convention and lead an independent contingent. Mr. Bryan said he did not make any such statement and said that the contemplated action was improbable and he did not deal in impossibilities.

"Never will you find the gold Democrats capturing any Democratic convention of national importance. The idea is absurd."

The Washington of the Nineteenth Century.

There are rocks upon the ocean shore that heed not the buffeting of the surge that beats on through centuries.

Gibraltar, by the gates of the Mediterranean, has defied the breakers of countless ages; so the name of Washington, struck by interests and national forces of an hundred years, shines brighter to night than ever before.

His history has become the heritage of every child, and often the American exclaims, "There never was another like him!"

While it may be that the ear who hath said, "Nature broke her molds over after fashioning a great soul," yet it must have struck the reader of history that in her creations of character she is in delineation sometimes almost identical.

So, looking back with inquisitive eye to this remarkable nineteenth century, untouched by the hand of the sage of Mt. Vernon, but glorified by so many illustrious Americans, the question rings out, who was the Washington of

Oration delivered by Miss Mamie Hubbard winner of the Gold Medal in Oratorical Contest, Feb. 25th.

as he in common with the hero of the Revolution?

But there now moves a figure upon the canvass of history that strikes even the eye with resemblance. Stately, leonine of eye and poise of head, yet benignant as a saint. At the head of squadrons about Richmond, sitting his horse like a centaur, calm, inspiring, you had but to remove with imagination the broad brimmed hat and suit of Confederate gray and clothe it with the cockade and colonial uniform of blue, to pass from Robert Edward Lee to George Washington.

But what of character and action?

Character is power. What lifts men to their level is the moral grandeur of their lives. There is the secret of the power wielded by Lee and Washington.

Who so strong to do good as they? Who so strong to resist evil? Who stronger to bear difficulty and misfortune? Let the camps of Valley Forge and Peters-

that time? Who was the man in character, in reputation and in person even, most resembling the Father of his country?

Was it Jackson? The first American of the nineteenth century, truly National was Andrew Jackson. Whether whipping the red-coats at New Orleans, valuing a national bank measure or dispensing hospitality at the Hermitage his figure is a favorite of his story. But while the deeds of Washington glow steady and pure, those of Jackson leap and blaze. The first President's policy was sagacious, while that of the seventh was brilliant. Valley Forge was a campaign of colossal persistence, seasoned by prayer, that of New Orleans of splendid dash, with a flavor almost Napoleonic; so as we run the thread of history these characters more and more diverge.

But there were other giants in the days of Jackson. Was it Clay, the electric spirited commoner? Webster, the most renowned Yankee? or Calhoun, the great defender of States Rights? No. The annals of history nor the biographical sketches do not prove a true similarity existing between the character and deeds of these men and that of Washington.

Was it the giant of giants, Abraham Lincoln? Lincoln and Washington were international figures. God gives but one of a kind to a people, yet striking resemblances occur. Lincoln in his breadth of horizon and poise of soul is another Father of his country and liberator of men.

But only in scope of plan are these two men alike.

Lincoln was born almost as lowly as the Son of Man himself; fed on poverty and a brother to want; tamed only by the earth and sky and inward whisperings of his own soul, unknown today—tomorrow the President of forty millions of people. Now with a jest upon his lips, now hurling principle of government from his soul, which is incorporated forever in the charter of freedom. Surely the question would come, what has such

burg answer. Are they not twin heroes, models of knightly character? Alike in their grand simplicity, in their purity and unselfishness. Both aristocratic democrats; both cavalier Virginians, lovers of home, born soldiers, alike in warfare, sweet tempered and patient in suffering, both their country's idols.

Washington is the idol of the whole United States, while the South worships at the shrine of Lee. Washington fought bravely for his country and no less can be said of Lee. Who dares to withhold Lee's noble deeds from the record of immortal fame because the South lost that which she sought to win? It has been said that it is in misfortune that the character of the upright man shines forth with the greatest luster, and when all else fails, he stands upon his integrity and courage. So if the South was defeated in the late civil strife, it only adds luster to the name and fame of Lee.

Truer greatness, a loftier nature a spirit more merciful, a character purer than that of Lee, the world has rarely ever known. When the future historian comes to survey the character of Lee, he will find it rising like a huge mountain above the undulating plain of humanity, and he will have to lift his eyes toward heaven to catch the summit.

Of Lee or Washington can be truly said: he was a foe without hate, a friend without treachery, a soldier without cruelty, and a victim without mourning. He was a public officer without vices, a private citizen without wrong, a neighbor without a reproach, a Christian without hypocrisy and a man without guile.

Lee was a Caesar without his ambition, a Frederick without his tyranny, a Napoleon without his selfishness, and a Washington without his reward.

BIGHAM & BROWNING.

DAVID N. STINSON

Dies in Carmi, Illinois—Well Known Here.

RESIDED HERE YEARS AGO.

David Newton Stinson passed away at the home of his son, Charles, in Carmi, Ill., Saturday, February 28. He was born in North Carolina, June 20, 1821, being in his 82d year at the time of his death. Mr. Stinson was sick about six weeks, and the cause of his death was inflammation of the lungs. Up to the time of his last illness he was possessed with an unusual vigor for one of his advanced age.

The active part of his life was spent in Kentucky. For a number of years he was in the merchandise business in Marion, Ky., and it is probably the life and habits impressed on them in those days, that made successful merchants of his four sons, who as fast as they grew to manhood came to Illinois and embarked in business for themselves.

Mr. Stinson was married June 12th, 1844, to Rebecca Brooks Dunn, a native of Kentucky, who was born in 1827, and who with her four sons survive the husband and father. The sons are Rufus and Charles of this city, Robert or Mt. Vernon, Ind., and Edward, of Enfield. Mr. and Mrs. Stinson were the parents of nine children; the other five died while yet young.

For years the deceased held the position of postmaster at Marion, Ky. The political complexion of the administration made no difference, and for more than a quarter of a century he served the public under democratic and republican alike. Politically he was a republican, but was very conservative in his opinions.

About seventeen years ago Mr. and Mrs. Stinson left Marion and came over to Illinois where they made their home with Mr. Charles Stinson at Norris City, coming here with him last fall.

The deceased was a member of the Presbyterian church. The funeral services were conducted at the church of that faith in this city. The body was taken to Enfield for burial.—Carmi (Ills.), Democrat.

A SENSATION

In Which a Mineral Man Known Here Figures.

A stylishly dressed woman, giving the name of Margaret Howard, of Louisville, Ky., was arrested in Cincinnati on the charge of robbing Abraham Newkirk, of Cleveland, Ohio, who afterwards also entered a complaint of blackmail. Newkirk is aged 50, and Miss Howard is 31.

Newkirk charges that the woman stole \$35 from under his pillow, and identified the bills when she was arrested. The couple were stopping at the Grand hotel and caused a sensation at 2 o'clock in the morning, when he fled to the street and she pursued him.

Newkirk says he first met the woman at Princeton, Ky., where he stops when looking after his spar mines at Kelsey, Ky., and she has since traveled with him. Since September last, he says, he has been so under her control that his life has been a torment. He charges that she has sent threatening letters to his grown children as well as to himself. The woman declares Newkirk is angry because she would not go to housekeeping.

Newkirk is known in the mining circles of this district. He was located at Salem for a while and was chief promoter of the Salem railroad.

WAR WAGING

Between Ohio Valley Produce Co and Armour Packing Co.

A war between the Armour Packing Company and the Ohio Valley Produce Company for the purchase of chickens, turkeys and eggs has been inaugurated in west Kentucky. The Ohio Valley Produce Company has over one hundred agencies. Its principal branches are at Princeton and Mayfield and it has been spending about \$75,000 a year in Graves county alone. Lately the Armour company decided to locate opposition agencies at many points and buy over the Ohio Valley people. Each concern is seeking to outbid the other, and as a result the luckless farmers are more prosperous.

The vast amount of country produce, eggs, chickens, etc., etc., that come to Marion for a market, has attracted the attention of Armour & Co., of Chicago, who for the past ten years have made quite a specialty of cold storage eggs canned chicken, boned turkey, etc., etc. This firm has had a representative here the past few days looking for a storage house and office and will likely enter the business with a branch at Princeton.

FROM THE COMMONER.

If the foreigner pays the tax, how comes it that the tariff barons wax so rich?

A democratic platform can not be framed by men who think more of personal profit than they do of principle.

While Mr Rockefeller is advertising for a new stomach he should insert a paragraph concerning a new conscience.

Southern cotton raisers have made note of the fact that the price of cotton did not go up until after they had disposed of their crops.

It was quite wrong for that White House attache to reproach Mr. Depew for laughing too loud. Certainly some one should laugh at Mr. Depew's jokes.

It will be noted that the newspapers so busily engaged in selecting a candidate for the democratic party in 1904 are the newspapers that so cordially supported the republican ticket in 1896 and 1902.

KENTUCKY NEWS.

The Court of Appeals since the reorganization stands five Democrats and two Republicans. Judge Bunham became Chief Justice, he holding the oldest commission, and will serve as Chief Justice for the remaining two years of his term.

In the six months from June 30 1902, the State Auditor has collected through attorneys and conveyed into the Treasury, \$6,540.45 secured from estates found belonging to idiots who had been sent to the State Asylums as paupers. The money was collected under an act of the last General Assembly, providing that the Asylum superintendents should report to the Auditor all pauper idiots confined, and authorizing him to institute actions to recover for maintenance from all those who have estates.

After waiting twenty-three years Ed. McCormack, of Paducah, has received word from Washington that he has been allowed \$9,000 back pension. Mr. McCormack has been working for pension ever since he filed his claim twenty-three years ago. He was a Union soldier and holds the office of Assistant Street Inspector.

Circuit Judge Cantrill refused to grant an injunction to restrain the holding of a State primary and dismissed the petition of Committeeman Meacham. The attorneys for Meacham asked for an appeal which was granted. Mr. Meacham says the case will be taken to the Court of Appeals and that other suits probably will be filed in different parts of the state by candidates who oppose the primary. The Democratic Executive committee will meet in a few days to hear the report of the sub-committee and make arrangements for the primary.

At Wickliffe R. B. Flatt, of Clinton, went to the room of Judge J. E. Robbins, who was stopping at the hotel, and is alleged to have assaulted him. Flatt is said to have been drinking and to have called the Judge a vile name and struck him. Judge Robbins thereupon drew a small knife and cut Flatt across the face and twice on the throat. The knife blade was broken by contact with Flatt's collarbone. The noise of the scuffle was heard below and the men were separated by Judge Robbins' friends. The Judge was not hurt, and Flatt's injuries are not serious.

One of the things developed by conferences during the recent Republican gathering in Louisville is that United States Senator Deboe cannot be elected chairman of the state central committee to succeed C. M. Barnett. Enough of the committeemen are already lined up against him to accomplish his defeat, unless Congress-man Boreing should co-operate with Deboe and this is looked upon as improbable. It was stated by a member of the state committee that Deboe can control only three or possibly four members on the committee.

Convict Henry E. Youtsey was before the Franklin county grand jury for six hours Saturday, and was summoned to reappear on Monday.

It is said that he has told the whole story of the plot to murder Nov. Wm. Goebel, and numerous sensational rumors are current here.

If these can be relied upon persons not heretofore indicted will have cause to feel uneasy.

His testimony will be securely guarded by the Commonwealth until he is placed on the witness stand in open court.

GENERAL NEWS.

Herman Boerchers, the thirteen year old boy who killed his step-father, near Columbus, Neb., and buried his body in a strawstack, was acquitted because of moral irresponsibility.

A spirited colloquy occurred between Chairman Gray, of the Coal Strike Commission, and President Mitchell, when the former declared he wanted to see the miner's union "come up out of the mire and into the sunlight" from the charges against it contained in the testimony tending to prove the existence of a reign of terror in the coal region.

The American Beet Sugar Association met in Washington and passed resolutions withdrawing opposition to the ratification of the Cuban reciprocity treaty, whereby sugar will be admitted from the island at a duty of 20 per cent. lower than the prevailing rates.

In transmitting to Congress the report of the Philippine commission, the President suggested that an accompanying letter from Secretary of War Root be headed, Secretary Root recommended that Congress vote a general appropriation of \$3,000,000 to relieve the distress of the Filipinos, in addition to the legislation specifically asked by the commission.

All the Powers interested, save the United States, have forwarded to China a joint note warning the Government of that country that unless the obligations of the protocol are followed and the Boxer indemnities paid in gold, "a grave consequence will follow."

In the Senate Mr. Vest spoke on his resolution calling for the removal of all duty from anthracite coal. He declared that the Republicans, rather than touch their "sacred elephant," the Dingley Tariff Bill, would stand complacently idle while women and children were freezing and starving to death.

Mr. Hoer delivered before the Senate a speech in support of his bill regulating trusts. He declared that great combines were a real peril with which the nation must deal. One of his leading points was against secrecy in connection with corporation transactions.

Three of the biggest coal companies in the United States have formed an alliance which for all practical purposes, will be a combination. The companies involved are the Consolidated Coal company of Maryland, the Fairmont Coal company of West Virginia, and the Somerset Coal company of Pennsylvania. The combined capital stock of the companies is \$31,750,000.

THE HOOSIER GIRL.

"The Hoosier Girl," a capital comedy that is to be presented at the opera house next Wednesday night, is a bright picture of rural life in the villages and country sections of Southern Indiana. The characters are not exaggerated as is the case in most farce comedies, but are true representations of people found in the above sections of the "Hoosier State," the home of the late far famed Senator Voorhes. The character of Roxana Peabody, as portrayed by Miss Kate Watson, is one of the best delineations of the bashful, meek, modest and unsophisticated country maiden on the American stage, and to use the word of the able critic on the New York Journal, "Miss Watson has many imitators, few equals and no superiors."

The Illinois Central Railroad Company has placed orders for \$1,500,000 worth of cars, car castings.

President Castro's acceptance of arbitration conditions has been received by England and Germany and it is now regarded as definitely settled that all questions shall go to The Hague tribunal.

The constantly increasing stringency in the coal situation has resulted in a decision to call a National convention in Washington as soon as possible for the purpose of urging on President Roosevelt the need of taking immediate action.

Six Arizona physicians have called the attention of the Surgeon General of the Marine Hospital Service to the danger of a spread of the bubonic plague to that State. They claim that absolutely no restriction is being exercised at the Mexican towns of Guaymas and Topolobampo, and that the disease is steadily working its way northward.

United States Minister Bowen has transmitted to the state department another communication from President Castro on the arbitration of the present troubles. Castro is now willing to submit the British and German claims to The Hague tribunal, something he had not formally conceded heretofore.

The Washington Public Library was dedicated last week with addresses by President Roosevelt and Andrew Carnegie, the donor of the building. In the course of his remarks Mr. Carnegie said he was "in the library manufacturing business; that he had established 730 libraries and had applications for more than 800 on hand, the great majority of which," he said "will no doubt, be given."

The house has passed the bill for the creation of a general staff for the army by a vote of 153 to 92. By the terms of the bill it becomes the duty of the general staff to prepare plans for the national defense and for the mobilization of the army in time of war to investigate and report on all questions affecting the efficiency of the service and to render professional aid to the secretary of war and to general officers and other superior commanders. The general staff corps is to consist of one chief of staff and two general officers to be detailed by the president from officers of the army at large, four colonels, six lieutenant colonels, twelve majors and twenty captains.

ANNOUNCEMENT.

FOR REPRESENTATIVE.

We are authorized to announce
T. EVERETT BUTLER
a candidate for Representative from Crittenden and Livingston counties in the next General Assembly of Kentucky, subject to the action of the Democratic party.

FOR CIRCUIT COURT CLERK.

We are authorized to announce
JOSEPH C. HURLAND,
a candidate for the Republican nomination of Circuit Court Clerk of Crittenden county.

CHARLES A. MOORE.

We are authorized to announce
a candidate for the Republican nomination of Circuit Court Clerk of Crittenden county.

The coal, steel, sugar, oil and other trusts might nominate a ticket of their own.

It is announced that the beet sugar industry has consented to a treaty with Cuba, and now the country will be permitted to go out her business.

Wm J. Stone has been nominated to succeed Senator Vest from Missouri. The retiring Senator is ex-Kentuckian, and the new Senator has the same superb qualifications.

The disposition of Congress to raise the tariff on coal imported here that under the stress of circumstances there are others who believe that the tariff adds to the cost.

Her exhibit at the St. Louis fair, Kentucky should hang oil paintings of the officials she has furnished the State of Missouri. This is an industry that should be called to the notice of the States.

The Republicans of Kentucky once had a reputation for fighting among themselves, but they, had better look to their laurels this year or the Democrats will be wearing that wreath.

Great politicians and trust magnates come in for a good share of newspaper notice, but one blast from the bugle of our own Henry Watterson is echoed in the columns of every newspaper in the land.

In the matter of lynchings, Kentucky will have to pass it up to Kansas. In the former the victim of a lynching must be the perpetrator of the crime, while in the latter the absence of the criminal is an immaterial point.

We see no reason why Messrs. Woodson and Meacham should not refer their fight against the committee to The Hague for arbitration. Bloodshed should be avoided, if the causes belli is within the realms of civilization.

Hon John W. Yerkes, Commissioner of Internal Revenue, has written from Washington to a personal friend in Louisville on the subject of his rumored Governor of Kentucky letter Mr. Yerkes plain that he is not an aspirant for the

Carnegie heads the list in New York, in the auction of personal property \$5,000,000; John D. comes next with \$2,000,000; John Jacob Astor, \$2,000,000; Russell Sage, \$2,000,000. He is a pretty big man, personal property is but 30,000 more than all of 10 people in Crittenden including their realty, and one diamond, and Jim mines.

Anti-trust bills are as numerous in Congress as were school-book bills in the Kentucky legislature, and bid fair to go glimmering in about the same style. The trusts know how to do business in the halls of legislation as well as over the counter.

Attorney Ray, for Committee-man Meacham, moved in the Appellate court yesterday to docket and advance the injunction case. Judge Pryor, for the State executive committee objected. The motion and the written grounds of objection were submitted.

Glen's Graphic, of Madisonville, will begin on February 5th the publication of a series of articles on "Morgan's Escape." The story is told by Capt Hookersmith now a resident of Madisonville, who planned and executed the escape of Gen. Morgan and his men from the Ohio penitentiary in 1863. A thrilling and truthful account of this interesting historical event will be given.

A cold wave, extending over a wide territory, is accompanied in many districts by a fuel famine, productive of intense suffering. In Chicago the temperature dropped twenty-four degrees, in less than two hours. The death rate in that city during the past week increased to an alarming extent. Charges are made before a special grand jury that coal dealers are holding loaded cars and that along certain lines of railway the coal is piled on the ground in great quantities. In rural districts in Missouri and Kansas fruit and shade trees are being burned for fuel.

OLLIE JAMES IN WASHINGTON.

Washington.—[Special to the Louisville Times.]—The Hon Ollie James, of Marion, Ky., who will be the heaviest man in the Fifty-eighth Congress was shown around the capitol today. He was introduced to the oldest member, Galusha Grow, of Pennsylvania, to the smallest man, Montague Leslie, of New York, to the shortest man, Sam Smith, of Michigan, to the youngest man, Morris Shepherd, of Texas, and to the tallest man, Si Salloway.

Mr. James is the only member of Congress weighing over three hundred pounds.

Congressman Ollie James, of the First Kentucky district, was a conspicuous figure on Pennsylvania Avenue today, and the observed of all observers.—Courier-Journal.

Close beside Senator Deboe, of Kentucky, yesterday, sat a very big man. He was a stranger to all the Senate, but a second look was necessary to distinguish him from the ponderous figure of the junior Senator from South Dakota, Mr. Kittredge, except when the stranger stood up. Then the stranger seemed much the taller of the two. He wore a red carnation in the lapel of his big coat, and soon appeared almost as much at home as an "old timer."

"He is Representative-elect Ollie James, of Kentucky, reputed one of the brightest young orators in the Blue Grass State, who takes the political shoes of Mr. Charles K. Wheeler, when that brilliant Democrat returns to private life."—Washington Post.

KENTUCKY WHISKY OUTPUT.

Louisville, Jan. 13.—Mr. B. Bernheim, chairman of the Committee on Whisky of the Board of Trade Monday filed an interesting annual report on the business in Kentucky. In this report Mr. Bernheim says that Louisville occupies first place as a whisky distributing point and is the center of the traffic in the United States. This city shipped \$30,000,000 worth of whisky the past year. The production of whisky in Kentucky for the year 1892 amounted to 24,144,807 gallons.

MORGAN TO TESTIFY.

Before the Kentucky Railroad Commission Investigation.

New York, January 12.—All the members of the Kentucky State Railroad Commission arrived in New York tonight. Chairman McClord and his associates on the board brought with them Attorney General Pratt, and Col. Bennett Young.

Thursday they will summon as witnesses before the Interstate Commerce Commission in the Federal Building, J. Pierpont Morgan, John W. Gates, F. Bates, Geo W. Perkins, August Belmont, Samuel Spencer, Charles Lanier, John I. Waterbury, Warren Delano, J. Elliott and a dozen other equally well known financiers.

J. P. Morgan and August Belmont have accepted service, along with others, and will go on the witness stand when called.

The Commission expects to prove by these witnesses its contention that a merger pact exists between the Louisville and Nashville railway, the Atlantic Coast Line, Illinois Central and Southern railway, and that it has for its object the elimination of competition among railroads throughout the entire South.

The testimony of J. P. Morgan is expected to be of especial value to the Commission, as he is credited with having managed the alleged big combination.

SENATOR DEBOE

Asks For Appropriation of \$50,000 for a Public Building in Marion.

United States Senator, Deboe introduced a bill in the Senate Monday asking for an appropriation of \$50,000 for a public building in Marion.

Some time ago a petition was sent from this city to the Senator asking him to use his influence toward securing a handsome post office building. It is to be hoped that the Senator's efforts will prove successful.

"A CHURCH ON THE MARCH."

Christmas night the brethren and sisters of Marion Baptist church marched through the severe cold, all armed with good things, and stormed their pastor's home and successfully captured it. We just unconditionally surrendered and were taken prisoners by the victorious host, whose banners bore the emblem, good will and cheer, and floated over the ramparts of our home, while these soldiers of peace took us in charge enclosing us in the prison of gratitude, and casting us even into the inner prison of joy, and made us fast in the stocks of love, and placing us under the bright guard of hope.

They left us with all manner of good things to sustain us; chickens, (Brother Joiner wouldn't mind that fowl), sausage, flour, sugar, butter, canned fruits, coffee, pickles, preserves, jellies, soda, sweet potatoes, fruit cake, oranges, apples, popcorn, towels, table linen, etc., etc.

We feel that we can endure this and are likely to get through the winter; though in prison we love our captors and feel that they are a loyal people. Such veterans as Elds J. S. Henry, E B Blackburn U. G. Hughes, were among the number. May the Lord bless these noble brethren and sisters for their kind warfare against their pastor's home, and from the depths of our inner prison we can sing praises to God for such tender remembrance by those whom we serve.

New Years Greeting!

We are glad that we are in business in Marion at the beginning of the good year of A. D., 1903. We appreciate the trade that came our way during the past year. We shall always strive to give 100 cents worth of goods for every dollar you spend with us. We know of no better inducement to offer you and of no higher aim to make in the business life. When you are in need of anything in our line, it will afford us pleasure to serve you on this basis. We carry a large line of

Furniture, Building Lumber, Doors Windows, Window Glass Paints and Oils.

We have a complete stock of Coffins, Caskets, Burial Robes and Slippers. A neat hearse for funeral occasions, and give prompt attention to all calls.

Yours truly,

Boston, Walker & Co.

We are glad to announce that
MR. FRANK DODGE
is with us this year.....

AGAIN CHOSEN PASTOR.

Rev T. A. Conway was again chosen as pastor of the Baptist church in this city, at a meeting of the church officials Saturday evening. In the future he will hold services twice a month instead of once a month. His salary was handsomely increased. In order to devote two Sundays to his church at this place it will be necessary for Rev Conway to resign the pastorate of either Rock Spring or New Bethel, two large churches he has served as pastor for several years.

Rev Conway has been pastor of the Marion church for three years and no minister is more popular with his membership than Rev. Conway. He is a splendid preacher and stands high in the estimation of the people of this city.

KING COAL AND THE WEATHER

The Chicago grand jury finds that coal dealers have delayed deliveries to create the appearance of short supply.

Toledo, Ohio, will not prosecute coal thieves, and all persons held on this charge have been released.

Freezing temperature was recorded in Tampa and Jacksonville Fla., Monday night.

Coal has advanced from \$3 to \$11.50 per ton in Chicago.

LEAF TOBACCO EXHIBIT.

Every section of Kentucky will have an interest in the big display of leaf tobacco that is to be made at the World's Fair at St. Louis in 1904, by the Kentucky Exhibit Association. There are very few counties that will not have some fine specimens of the "weed" to show. The Committee on Leaf Tobacco Exhibit has just been announced by the chairman, Chas. D. Campbell, and it is one of the strongest committees yet named. Besides Mr. Campbell there are fourteen members, as follows: J. M. Vaughan, Owensboro, Ed Rice Kelsey, W. H. Cummings, Hopkinsville, E. L. Hendrick, Bowling Green, Daniel Pool, Paris, Jas Bright, Shelbyville, Dr. J. M. Frazee, Maysville, George Ligon, Mayfield, R. H. Souper, Henderson, E. J. O'Brien, Joseph Robinson, Frank Harpring, W. O. Head, A. P. Barnard, Louisville. In the personnel of this committee is not only represented every section of the State but every variety of tobacco has one or more representatives. All of these gentlemen have accepted places on the committee, and assured Mr. Campbell that they will see to it that Kentucky has the finest leaf tobacco exhibit at the exposition ever shown to the world.

EXPLOSION AT CASEYVILLE.

Near Caseyville two boys, Jas Newkirk, and John Knight shot at some birds on a magazine in which powder and dynamite were stored. An explosion followed and the boys were hurled into the air, sustaining injuries that may prove fatal. The magazine was owned by the Harth Bros.

Nearly one fourth of the 250,000,000 tons of bituminous coal mined in this country last year came from the South. The value of the lumber produced by the South in 1890, \$29,930,434; in 1900 it was \$183,113,521.

You will feel on better terms with yourself and the world after a call on "The Hoosier Girl."
"The Hoosier Girl" comes to this city well recommended and highly praised by critics and theatre goers. The patrons of this production will find it well staged and costumed and the characters in the hands of the people who work hard to please and succeed. It may safely be said that this performance will be found one of the best ever seen here. Opera House tonight.
Metropolis, Ill., Jan. 14th.
MANAGER MARION OPERA HOUSE.

"A ROYAL SLAVE."
Mr. Walter Walker, who will continue to book attractions for the opera house, closed a contract for the appearance, at the opera house Thursday night, Jan. 22nd, of "The Royal Slave," one of the most elaborate and beautiful productions on the road. It is a play of great literary and dramatic merit. It is a charming story of old Mexico during the reign of the Montezumas. The company consists of twenty-five artists headed by the eminent actor, Mr. Clarence Bennett. "The Royal Slave" will be one of the best attractions Manager Boaz will offer his patrons this season.
HOME TALENT.
The public will have a chance at some thing good in an entertainment by a bit of the histrionic talent of Marion Graded School, Friday night, Jan. 23, Marion Opera House.
The central feature of the evening will be the giving of the celebrated farce, "A Regular Fix."
Of the highest merit in style and authorship this farce of 35 minutes has been put upon every high class stage in this country and Europe, and while Marion school makes no pretention toward staging plays, yet, those who have witnessed its efforts in the past in this direction will expect a pleasant program. The following is a cast of characters:
A REGULAR FIX.
Hugh DeBrass—Virgil Moore.
Surplus, an elderly lawyer—Coleman Haynes.
Chas. Surplus, nephew to Mr. Surplus—Wilbur Haynes.
Abie Quick, clerk to Surplus—Jamie Kevit.
Smiler, a sheriff—Everett Mimer.
Emily, adopted daughter of Surplus—Miss Ina Price.
Mrs. Surplus, wife of lawyer—Miss Hilda Schwab.
Mrs. Carter, housekeeper to Surplus—Miss Ellis Gray.
Mathilda Jane, waiting maid—Miss Dolly Crowder.
Besides this farce, song, recitation and a beautiful drill by High School Girls will lend a charm.
All proceeds used by the school to advance its library and other interests.
Admission, 35c, 25c and 10c.
CHARLES EVANS.

WINS TWO PRIZES.

Mr. R. L. Flannery a Wide-Awake Insurance Man.

Mr. Robert L. Flannery, of this city, the hustling agent for the Equitable Life Insurance Company, was notified Monday that he had written next to the highest number of applications for life insurance between Nov. 1st, 1902, and Jan. 1st, 1903, in the State of Kentucky, entitling him to the second prize \$150 in cash. There were a great many competitors.

Mr. Henry J. Powell, manager for the Equitable Life Insurance business in Kentucky, offered a free trip to Washington and New York City, to all agents

ROBERT L. FLANNERY.

who would write as much as \$100,000 insurance between Sept. 1st, and Jan. 1st. Between Oct. 12th and January 1st, Mr. Flannery wrote and paid for new business amounting to \$100,500, and he will be one of the party that will take the mid-winter outing in February, spending ten days in Washington and New York City.

During the year 1902, Mr. Flannery wrote insurance to the amount of \$145,000. This is an enviable record for an insurance man. The Equitable is one of the strongest life insurance companies in existence, and the company certainly made no mistake in securing Mr. Flannery for their representative in this county.

DIED IN PRISON.

Remains of a Convict Shipped to His Old Home.

This morning the remains of a convict named Ramage, who died in the penitentiary at Chester, Ill., arrived in this city and were taken to Livingston county where the parents of the deceased reside.

Ramage had been confined in the prison for ten or twelve years. He killed a policeman at Cairo, Ill., and was given a life sentence. It is reported that his relatives were endeavoring to obtain a pardon when death released Ramage from his confinement.

TWENTIETH CENTURY.

Thank Offering \$20,000,000...
Easily Raised.

In many respects the most impressive item of news last week was the announcement that the Twentieth Century Methodist thank offering of \$20,000,000 for education and charity had been easily raised with a handsome margin to spare. A notable feature, too, about the heaping together of this vast sum is that the bulk of it has come from the rank and file of the church, there being only one gift of as much as \$100,000, and one of \$150,000, the remainder being made up of smaller sums. One conference in the Northwest composed of Scandinavians gave an average of \$22 for each member, and another went a little better than that, yet all these liberal givers were poor men and women. No Rockefeller, no Dr. Pearson, no Gould, no Vanderbilt was included in their numbers, and yet how imposing is the aggregate of their contributions.

It is true the Methodist church makes a surprisingly large portion of the Protestant world. At the Ecumenical Conference in London last year figures were presented showing that the membership of this denomination footed up more than one fifth of the English speaking races.

The hold of the Methodist church upon the plain people was effectually demonstrated at that conference, and it has been demonstrated again by the ease with which over \$20,000,000 has been subscribed for educational institutions, debts on churches, funds for indigent preachers, church extension work and other philanthropies. It is an effectual reputation of the asset of oft repeated that the masses are drifting away from the churches. Instead, they are moving in to the churches, for what the followers of John Wesley are doing is no more than what the other great Christian denominations are accomplishing.

The Christian world is becoming more tolerant, more enlightened, more in harmony with the teachings of the New Testament, and less disposed to the literal construction of the Moslem period.—*Courier-Journal.*

Vigorous Old Age

POWER OF THE PRESS.

Circular Advertising Cannot Be Compared With Newspaper Advertising.

In the course of recent lectures in Hartford, Conn., on "The Making of a Newspaper," Charles Hopkins Clark, of the *Courant*, said:

"How are you going to get at the public? Mail them circulars and the waste baskets in 10,000 homes give each a weary yawn, and the circulars disappear unread. Call upon the people and explain the merits of your wares? The sign, 'Our Busy Day' hangs in business offices. In private houses you must ring the bell. Often you are turned away. If you get in by any shrewd excuse, you cannot go beyond the hall or reception room; you are quietly watched in the interest of overcautions and umbrellas."

"But put a cleverly worded advertisement of these wares in a newspaper that has an established circulation the city's homes and business houses and see what happens. You couldn't get in there yourself, but your advertisement is there on the breakfast table, in the library, in the parlor, in the sewing room, and when everybody is inquiring for the paper which can't be found, it is very likely doing duty on the quiet in the kitchen. It is all over the house and wanted there. You are not. Similarly at the office, it is read and re-read, and part of the use of 'This is Our Busy Day' sign is to get the chance to read the papers. And it is interesting to note the advertisement has another than a commercial use. It is printed for business purposes pure and simple, but it is often read as news."

Unconscious From Creep.

During a sudden and terrible attack of group our little girl was unconscious from strangulation, says A. L. Spafford, postmaster, Chester, Mich., and a dose of One Minute Cough Cure was administered and repeated often. It reduced the swelling and inflammation, cut the mucus and shortly the child was resting easy and speedily recovered. It cures Coughs, Colds, Latridis, and all Throat and Lung troubles. One Minute Cough Cure lingers in the throat and chest and enables the lungs to contribute pure, health giving oxygen to the blood. R. F. Haynes.

It is a combination of the healing properties of Witch Hazel with antiseptics and emollients; relieves and permanently cures blind, bleeding, itching and protruding piles, sores, cuts, bruises, eczema and rheum and all skin diseases. KENTUCKY.

The U. S. Civil Service Commission report that for the year ending June 30, 1902, there were 14,883 persons appointed from its registers. This was 4,332 more than was ever before appointed in a single year. Anyone wishing information about these positions can secure it free by writing for the Civil Service announcement of the Columbian Correspondence College, Washington, D. C. The commission will hold examinations to secure young men and women for these places during March and April at Covington, Danville, Owensboro, Louisville and Lexington.

Proverbs

"When the butter won't come put a penny in the churn," is an old time dairy proverb. It often seems to work though no one has ever told why.

When mothers are worried because the children do not get strength and flesh we say give them Scott's Emulsion.

It is like the penny in the milk because it works and because there is something astonishing about it.

Scott's Emulsion is simply a milk of pure cod liver oil with some hypophosphites especially prepared for delicate stomachs.

Children take to it naturally because they like the taste and the remedy takes just as naturally to the children because it is so perfectly adapted to their wants.

For all weak and pale and thin children Scott's Emulsion is the most satisfactory treatment.

We will send you the penny, i. e., a sample free.

Be sure that this picture in the form of a label is on the wrapper of every bottle of Emulsion you buy.

BIGHAM & BROWNING.
Miss Ruby James, of Marion, is spending the winter with her sister at Webb City, Iowa. She was on the programme in an entertainment given for charitable purposes in that city, and the Daily Herald pays her the following handsome compliment: "The negro dialect recitation by Miss James, sister of Mrs. L. H. Ford, was a display of elocutionary talent that has rarely been heard here before. She responded happily to an encore and did her part with such a modest, unassuming air that the people were more than delighted."
We have noticed one gratifying fact: That those who come to our store buy at our store. That those who first look around in other stores and then come here buy here.
CLIFTONS.

PICKENS—PARIS.
Deputy Sheriff Joel A. C. Pickens and Mrs. Amanda M. Paris, were married at the home of the bride Wednesday evening, March 4th. A number of friends and relatives witnessed the ceremony.
HARRIGAN SELLS OUT.
Mr. William Harrigan has sold his saloon in this city to Messrs. Hardin, Eberle and Martin, of Salem. Mr. Harrigan's health has been very bad for some time and he was forced to retire from the business. He left Sunday for Hot Springs, Ark., where he will remain several weeks.
SUNDAY SCHOOL INSTITUTE.
Rev. T. C. Gebauer, State Worker, conducted a Sunday School Institute at the Methodist church in this city Tuesday. Sessions were held in the morning, afternoon and evening. Many plans and methods of Sunday school work were discussed. Rev. Gebauer's talks were very entertaining and instructive. Local Sunday school workers participated in the discussions.
TO SEE "BEN HUR."
Quite a large number of Marion people will see "Ben Hur," at Louisville this week. A party composed of Messrs. Leaffa Wilborn, Nellie Walker, Mr. and Mrs. C. S. Nuun, Mr. and Mrs. Jas. H. Orme and Mr. J. W. Blue will attend the performance on Thursday evening. Messrs. Arthur Finley and Walter Walker will leave today for Louisville and will see the big spectacle Friday evening.
NARROW ESCAPE.
Mr. R. J. Robinson, of this city, who is employed by the Illinois Central Railroad as flagman had a remarkable escape from instant death at Princeton Thursday afternoon. He was struck by a freight engine and thrown 20 feet through the air. Strange to say he escaped with a few bruises and a slight scratch or two.
Mr. Robertson and the conductor of the train were taking the numbers of the cars, preparatory to making up a freight train. The flagman stepped on one track thinking that the engine was coming down another. Instead it came down the track on which he was standing, and was on him before he knew it.
When the pilot struck him and threw him into the air the trainmen, who saw the accident thought he would be killed instantly. When they went to him, however, they were agreeably surprised to find him comparatively unharmed.

OLD FOLKS CONCERT
And Spelling Bee Thursday Night Well Attended.
The Old Folks Concert and Spelling Bee given at the opera house Thursday night under the auspices of the ladies of the Presbyterian church drew a good sized audience.
The program rendered by the old folks was highly enjoyed and every number was heartily applauded. Mrs. R. W. Wilson and Mr. Dave Woods made the welcome address. Mrs. Wilson appeared as a giddy maid and Mr. Woods as a shy youth. Mr. W. Hale Walker recited, "My First Whistle." Mrs. J. W. Trisler and Mrs. R. E. Pickens made up as aged ladies, and Mrs. Carrie Thomas dressed as a maiden, sang two sweet old melodies. One of the splendid features of the program was the sermon delivered by "Auntie" Stillwell. She kept the audience convulsed with laughter from the beginning until the end of her wonderful discourse. The essay on "The Cow" by Mrs. Thomas was rich. Mrs. Gilliam delighted the audience with two piano solos, playing old time music.
Col. D. C. Roberts and Judge J. P. Pierce "chose up" in the spelling match. There were fourteen on each side. Rev. J. F. Price was the teacher. The spelling continued for nearly two hours. Mr. H. A. Haynes, on Col. Roberts "side" was declared the best speller.
Mr. Jno. W. Blue, as stage manager, was very entertaining in his announcements of the various features. The door receipts were fifty-two dollars.
The ladies have received many requests to repeat the "Spelling Bee," and they have decided to do so within a week or ten days.

COMMITTEE MEETS.
Republican Committee Reorganized in this City Monday.
Pursuant to call the Republican County Committee of Crittenden county met at the court house in this city Monday for the purpose of reorganizing, and filling vacancies in the committee.
Chairman Conger called the house to order at 1:30 o'clock and stated the purpose of the meeting, and after filling the vacancies in the committee, all prospective candidates for circuit court clerk were called on to make their announcement, and the following responded: Joseph C. Bourland, Learner E. Guess, Charles A. Moore, and on account of illness John G. Asher was not present, but was represented by Dr. T. Atchison Frazer, who announced that Mr. Asher was a candidate.
Ex-Senator Deboe addressed the committee on state and national affairs.
The committee will meet in this city on Monday, April 13, county court day, and will then fix the time and manner in which a candidate will be nominated for circuit clerk. It is thought, however, that it will be left to the county committee to make the nomination.
DR. PRETTY EAGLE
Goes Up Against the Police Court and Lands in Jail.
Dr. Louis Pretty Eagle, the Indian doctor, was arrested Thursday charged with carrying concealed deadly weapons. He was arraigned before Judge Kevil in the police court. The defendant claimed that he was a detective and had a right to carry arms. However he failed to convince the jury and was fined \$25 and given ten days in jail. The jury recommended that the case be referred to the city council. Dr. Pretty Eagle is serving his jail sentence.
SOMETHING NEW.
Here is a few of the many new things I will have to offer you as cheap as the cheapest. Dry Goods, Clothing, Hats and Shoes, Groceries, Flour, Meat, Cigars, Tobacco, Patent Medicines, Hardware, Saddlery, Harness, Drills, Blount, Oliver, Chill, Avery, Hartig and Becker Plows, Corn Drills, Ox Fertilizer, Queensware, Glassware, and Furniture. When your friends have to have one, remember I keep on hand a nice line of collars, casckets and robes. Thanking you one and all for past patronage and hoping to be able to serve you better in the future. Your very truly,
W. H. TOWERY.
LAST WARNING
To the Tax Payers of Crittenden County Who Still Owe 1902 Tax.
I have collected a great deal of tax during February but there is still over \$1,000 yet of tax uncollected. This is the last warning to you. All the real estate on which the tax is unpaid will be levied on and advertised in the Crittenden Press on March 19, 1903. It takes four weeks to advertise it and I will sell it at the court house door on April 15th, if you have not paid. You who own no real estate must settle for immediately after Circuit Court I will levy on you also.
J. W. LAMB, S. C. C.
We have just received a carload of No. 2 white Northern oats; will sell at 55c per bushel.

COUNTY NEWS.

MEXICO.

(Last week's letter.)

Mr. Gooch and others of Hopkineville, were at this place looking after mining interest.

The Commercial Mining Company bought the property belonging to W. I. Taber and are talking of putting in a 10,000 stock of goods here in the near future.

Miss May Stephenson was the guest of Miss Dora Myers Saturday and Sunday.

Wm. Rogers and Miss Pearl Hudspeth were married at Hopkineville Saturday.

Jim Baker is talking of moving from this place to the country.

Wm. James sold his tobacco to a Paducah firm.

Buckner Young is having a new house built. Willie Polk is also having a barn built.

Mrs. Hartie Brasher is confined to her bed with lung trouble.

Mrs. Mattie Hopson has been very sick but is reported better.

B. B. Boswell and son have sold their property to P. R. Hodge, and will move to their farm.

Miss Addie Myers is trying to make up a spring school in this district. She is an intelligent young lady and we like to see her succeed.

HARDESTY.

The farmers are building fence and getting ready for spring.

C. G. Daniels broke the record a few days ago; he built a house in one day.

Back water is rising again; reports say a big rise is coming.

Misses Ora and Jessie Hardin visited their sister at Hardesty last week.

Wheat is looking well in this section.

Mrs. John C. Kemp is very sick. She is paralyzed.

H. R. Demesse has recovered from pneumonia fever.

Mrs. Nellie Miles and Miss May Hale were the guests of Mrs. Belle Hardesty Sunday.

Nick Bridges bought a nice lot of hogs from Richard Miles last week.

Since the death of Modoc we never read news that appeared in your columns from Irma the last two weeks.

LOLA.

As Lola has not been represented in your paper recently I will send you a few items from our thriving town.

Pearl Flanary has just returned from a visit to friends and relatives near Sheridan.

Bob Gray is still as short as ever but he goes to Jotham Belt's all the same.

The dance at Charlie Darra was largely attended.

S. B. Watson and Hood Kennedy are very quiet since they got their candy and rattle box from Mr. Wright.

There is no kind of work going on because of the bad condition of the roads.

We want the readers of the PRESS to know that there is land on Flatlick that is neither leased nor optioned; this is good prospect territory.

IRON HILL.

We will mention just a few of the enterprises of this section. First we would call attention to the discovery and development of coal on F. N. Fox's farm, just one mile west of our town, which is pronounced by experts to be of the finest specimen, and bids fair to make himself famous by the output of the best coal in West Kentucky, and yet the prospects are flattering for spar, lead and zinc. Mr. George Roberts having on his farm a fine specimen of

Our hustling merchant, Mr. J. N. Dean, with all of his hustle and capital cannot supply the demand of the enormous trade that drifts this way; and the transient men passing this way may see the corner stones set preparatory to the extension of our incorporation.

Transportation is far short of the demand. With our many fine horses and all modern improvements, moving day and night is but a drop in the bucket, causing the formation of a Transportation Flat & Tug Co., and today you might see the great tug and flat boats ploughing the sunny waves of old Piney, loaded with staves for the Hiram Blow Stave Co., operated by the very best boatmen on Piney.

And our city marshal, Mr. Lit Hodges, is ever found at his post of duty, willing and ready to perform his duty.

The sutton shops stand wide open to do all kinds of repairing on short notice.

LEVIAS.

A new girl at Henry Watson's, Mrs. Fannie Davis has moved to the Croson place, and Dunk Dunning to the LaRue place.

Ed Rutter, colored, was tried before Esq. LaRue, Friday, for an assault upon John Farley. He was fined \$5 and costs.

The peach crop is reported to be killed by the recent blizzard, and the wheat greatly damaged.

J. L. Settles has been confined to his room about a week with the grip.

J. B. Carter is canvassing the two counties in the interest of harvesting machinery.

Mrs. Millie Price died Sunday night after a lingering illness of six months. She was loved by all who knew her and her friends are legion. Her surviving husband and children have the sympathy of the entire neighborhood.

FREDONIA AND KEL.

The Farmer's Institute was well attended here Saturday, a large number of the farmers from this and adjoining counties were present, also several prominent agriculturists from different parts of the State were present and gave some excellent talks.

Albert Boaz visited relatives in Crittenden a few days last week.

Rev. Halseell filled his appointment at the C. P. church Sunday.

George Reid is visiting relatives near Princeton.

Robt. Deering, our depot agent, has been moved from this place to Dekoven. He was one of the best agents that has ever been in charge of this office. Will Ackridge is our agent now, and we think he will make us a good one.

Rev. Elma Jourdan, of Louisville, was the guest of Rev. Miller last Friday.

Several of our citizens are in Princeton this week attending court.

Rev. Miller filled his usual appointment at New Bethel Sunday.

Garton Rasco, who has been visiting at Cadiz for several days, is with us again.

Lige Brinkley, our section boss, visited at Blackford Saturday and Sunday.

Our roller mills are running now in full blast.

Mr. and Mrs. Bentley and Mr. and Mrs. Sam Howerton have been visiting relatives near Hopkinsville.

OLD JIM.

Old Jim's popularity is increasing; the latest fad is to visit this noted mines and while here call on W. D. Humphrey, our popular minister, who is ever ready and willing to oblige the young people who are matrimonially inclined.

Several car loads of fine zinc was raised from the bottom of the shaft, and of course John and Glen were all smiles. Mr. Uren is considerably elated over the fine showing of zinc. He says he never saw a finer prospect for zinc than Old Jim shows. The shaft is of the shaft is as smooth as if it had been planned.

Mr. Ed Martin and Miss Annie

Horning were married Monday morning, Rev. W. D. Humphrey officiating.

Mr. Hughey Hughes died last Thursday after a brief illness. He was born in Wales, and emigrated to this country at an early age; he leaves a wife, three children and a host of friends to mourn his loss.

Marion Davidson has built several rods of new paling fence which adds greatly to the appearance of his farm.

Several of the boys are prospecting for the lead of Old Jim, but so far they have been unsuccessful.

The peach crop of this section was killed by the late cold spell.

Saturday was pay day at the Old Jim and Bad Eye mines, and the boys were seen picking their way along the muddy highway in the direction of Marion to get their envelope. Look out boys or else the "Cannon" will get a "take out" from the contents of that envelope.

TRADEWATER.

Some of our boys have the Missouri fever.

Preaching at Cave Spring every first Saturday and Sunday.

Joe Brantley says Henry Reynolds wants to know whether horn owls lay eggs.

The boys are getting anxious to sow plant beds.

The 5th Sunday in March is the time set to organize our Sunday school at Cave Spring. Let every one come out and organize a first class school.

G. D. Brantley is moving to the Farley farm.

Luther Givens had a colt to pass out with blind staggers.

John McKee seems to be interested in black cats.

Joe Cook is running a ferry boat on Pigeon roost, near Ned Crowell's grist mill, and you bet it is all right.

Hello, Gus, how do you like to measure lumber with nails in it?

Frank Clark has sold his farm and says he is going to Blackford.

Fred Clark has contracted for a piece of land, and I hope he may get it.

Albert Brantley says he wants to borrow a gun; he is getting desperate.

Uncle Harve Travis is in Weston.

Marshall McKee has been complaining of a crick in the neck.

Mrs. Minnie Travis is on the sick list.

Uncle George Tosh says he will have to sell old Beck before Cheese can come to see him.

Some one entered Bill Chauder's house Sunday while he was at church and took two rings.

Bill Keen has returned from Hopkins county but will go back in a few days.

Den Brantley says everything looks like Uncle Henry's big yellow dog.

A GOLDEN WEDDING.

On the 10th inst., ex-Squire T. C. Campbell and wife, Mrs. S. C. Campbell, of Dycusburg, will celebrate their golden wedding by gathering their children and grandchildren at their home, feasting with them sumptuously. Fifty years ago Mr. Campbell and Miss Sarah Orider were married, he at the age of 20 years and she 18. Now at the ages of 70 and 68 they look back on the fifty years of their married life as a prosperous past. Mr. Campbell is an honored citizen of his community. He was for a number of years years magistrate of the Dycusburg district; he is a member of the Masonic lodge and also a member of Caldwell Springs Baptist church. Mr. and Mrs. Campbell are a hale and happy pair, and a multitude of friends invoke a blessing upon their golden anniversary and hope that time will yet add many years to their useful lives.

CARRSVILLE PEOPLE

To Vote on Whisky Question... Other Livingston County Items

The residence of M. C. Jones, a prominent farmer of the Ginn Springs neighborhood, was destroyed by fire; no insurance.

Miss Ida Fox and Mr. Wallace Duley of the Tilene neighborhood were married last week.

The Smithland Banner says: W. H. Morton filed a petition in the county court Monday asking that Judge Evans order an election to be held in the town of Carrsville to take the sense of the voters on the whiskey question.

Carrsville has been "dry" for several years. It is claimed by Mr. Morton and others that a large majority of the citizens of that town will vote for open saloons. In fact the petition presented in court was signed by forty legal voters, while only about fifty voters reside within the corporate limits.

The petition will be taken up at the next session of county court. It is not now known whether there will be opposition to the election.

Nearly three hundred persons have petitioned Judge Evans to make an order in the county court ordering the Berry Ferry and Golconda Ferry moved some distance down the river. A petition of over three hundred opposing the proposed change was filed also. The matter will be passed on at the April term.

On Sunday, March 1st, Mr. Harry W. Hodge and Miss Nettie Jamieson, popular young people of the Blooming Grove neighborhood, were married at the residence of Mr. B. D. Jameson.

A shanty boatman named Lawson died near Mulliken. He was in destitute circumstances. He had no relatives and was buried on the banks of the Cumberland river.

Ex-jailer W. H. Taylor of Vicksburg, was sworn in as justice of the peace of Smithland district, No. 1, several days ago.

FREDONIA PEOPLE FAKED.

It appears that the Fredonia section is having to do with a fakir who represented himself to be an insurance agent. A few days ago he appeared under the name of Ben J. Chapeza, representing the National Life Insurance company, of which Dr. J. N. Todd is the medical examiner in Fredonia. He talked life insurance glibly and succeeded in taking some policies, the parties giving their notes for the amount of the premium. He had Dr. Todd to examine them and then reported that he was in need of money and offered to sell the notes at a large discount. The doctor bought them and reported to the company for his fee as examiner. The company have reported that they have no such agent, and the policies have not been turned in.—Princeton Chronicle.

SARAH BERNHART'S

Tomb—Granite Burial Place for Actress is Completed.

Paris, Feb. 28. Sarah Bernhardt's ghoulish freak of ordering her own coffin made and using it for a bed is a matter of past history, which served the purpose of advertising much better than her pal snakes and tiger cats.

But was it for advertising purposes? She has followed up her coffin exploit vigorously in later years, by supervising the erection of her own tomb, in the Pere la Chaise cemetery at Paris.

It would seem that both of these morbid freaks are merely the evidence of an eccentric nature, that may also be responsible indirectly for her great genius. The tomb is now completed. It is a granite structure, severely plain, and pierced by four arches. Inscribed upon it in plain, bold letters, is the single word, "Bernhardt."

A Remarkable Case.

One of the most remarkable cases of a cold, deep seated on the lungs, causing pneumonia, is that of Mrs. Gertrude E. Fenner, Marion, Ind., who was entirely cured by the use of One Minute Cough Cure. She says: "The coughing and straining so weakened me that I ran down in weight from 118 to 92 lbs. I tried a number of remedies to no avail until I used One Minute Cough Cure. Four bottles of this wonderful remedy cured me entirely of the cough, strengthened my lungs and restored me to my normal weight, health and strength."—R. F. Haynes.

Augustus G. Willson, of Louisville, denies that he is a candidate for the Republican nomination for governor of Kentucky. He said he would feel complimented, like any ordinary citizen, by being nominated, but when asked if he would accept the nomination if it was tendered to him, he replied that he would not accept it under any conditions.

TO LIVE A CENTURY.

It is said that by observing the following rules one stands a good chance of being a worthy member of the Hundred Year Club.

Sleep on your right side.
Keep your bed room window open all night.

Have a nut to your bed room door.

Do not have your bedstead against the wall.

No cold water in the morning, but a bath at the temperature of the body.

Exercise before breakfast.

Eat a little meat and see that it is well cooked.

For adults drink no milk.

Eat plenty of fat to feed the cells which destroy the disease germs.

Avoid intoxicants, which destroy those cells.

Live in the country if you can.

Daily exercise in the open air.

Allow no pet animals in your living rooms; they are likely to carry about disease germs.

Watch the three D's—drinking water, dumpy, drains.

Take frequent naps, short holidays.

Limit your ambition.

Keep your temper.

PROVERB HUNTING.

There is great pleasure in The Cincinnati Post's "Proverb Hunting Contest." That enterprising newspaper will give away \$1500 worth of desirable prizes including several grand steamship trips to the East, West, North and South, without any expense to the successful proverb hunter.

Our readers should secure a copy of The Cincinnati Post every day, and study the proverb which appears in each issue. Many of our readers will readily recall the proverb which they see the picture, and will have little difficulty in naming some of The Post's elegant prizes.

The Cincinnati Post's "Proverb Hunting Contest" is an educational campaign and is naturally endorsed by ministers, school teachers, lawyers, business men, professional men, students and school children. It is an incentive to the student to dig into authorities, and prove his knowledge of proverb studies. The Post proverb hunt commands especial attention because of The Post's liberality in rewarding its readers for devoting a little time to research and study. We advise our readers to become subscribers to The Cincinnati Post, and immediately enter the "Proverb Hunting Contest." The Post makes daily announcements for the benefit of its readers and the general public.

The Contest began January 28th and you can enter the contest any time before it closes. Secure back numbers from the Post at regular rates.

Faine's Celery Compound

Cures
INDIGESTION,
BILIOUSNESS,
STOMACH TROUBLES.

The features and cells of dyspepsia and indigestion by thousands of people's train of evils are as follows: feelings of fullness, nervousness, sleeplessness, loss of appetite, loss of the action of the bowels, and the action of the stomach.

All forms of dyspepsia are quickly relieved by the use of Faine's Celery Compound. It is a powerful medicine which allays the action of the nerves centered about the stomach; it opens up the secret of the body and removes all waste matter; it cleanses the blood; it makes new nerve fibers; it restores digestive power, and promotes bodily strength and activity. Mr. Fred. Ross, Clarendon, Iowa, briefly writes about his happy experience with Faine's Celery Compound as follows:

"It gives me great pleasure to testify to the merits of Faine's Celery Compound. I can confidently and honestly say it is the best medicine in the world. Two years ago I was suffering from indigestion and nervousness, and was so run down that I could hardly walk without help. I used two bottles of Faine's Celery Compound and got better almost from the first dose, and have had no use for medicine since. I was completely cured."

SAM JONES ON ROOSEVELT.

Rev. Sam Jones of Georgia, the famous evangelist, was in Washington a few days ago, and dropped a few characteristic remarks in the hearing of newspaper men where he thought they would do him most good.

He had something to say of President Roosevelt's policy on the negro question. "It has got to be a very serious thing. President Roosevelt's policy is dangerous and he had better let it alone right now."

Then, with a chuckle, Mr. Jones added: "Some men are some kinds of fool and somehow escape, but when a man gets to be all kinds of a fool he is generally locked up. I am trying not to be all kinds of a fool, and I think there are folks who would better emulate my example."

Mr. Jones also took occasion to say: "Tillman made a great speech on the race question. He seems to be the only man in the senate who has the grit to speak his honest convictions. They tell me that he has got to be the Sam Jones of Politics."

It Saved His Leg

T. A. Danforth, of LaGrange, Ga., suffered for six months with a frightful running sore on his leg; but writes that Backen's Arnica Salve wholly cured it in five days. For ulcers, wounds, piles, etc. the best salve in the world. Cure guaranteed. Only 25c at Woods & Co.

SUNDAY SCHOOL INSTITUTE.

State field worker, Rev. T. C. Gebauer, of Henderson, Ky., will conduct Sunday School Institutes at Repton, Crayneville and Marion, March 9th and 10th. Monday the 9th at Repton at 2 p. m., and Crayneville at 7:30 p. m. Tuesday the 10th at Marion, morning, afternoon and night services.

Mr. Gebauer, formerly a S. S. worker of Indiana, has recently been employed by our Sunday School State Executive Committee to work in Kentucky for the year 1903. He was at our county convention in 1900 at Chapel Hill, and gave some excellent plans and methods for S. S. work. Those that heard him then will learn with pleasure of his coming again.

It is with gratitude to God and through the loyalty and persistent efforts of our county president, R. M. Franks, that we report Crittenden a banner county. It should be the pride and purpose of S. S. workers of the county to see that the standard of excellence is maintained. So be sure and hear Bro. Gebauer. It will be a source of information and inspiration. The public is cordially invited. All the district and county officers are expected to attend.

B. F. JACOBS, Co. Sec'y.

More Riots

Disturbances of strikers are not nearly as grave as an individual disorder of the system. Overwork, loss of sleep, nervous tension will be followed by utter collapse, unless a reliable remedy is immediately employed. There is nothing so efficient to cure disorders of the liver and kidneys as Electric Bitters. It's a wonderful tonic, and effective nerve and the greatest all around medicine for run down systems. It dispels nervousness, rheumatism and neuralgia and expels malarial germs. Only 50c, and satisfaction guaranteed by Woods & Co.

Old Washington Custom.

According to ancient and established usage, United States senators send out small envelopes containing their cards at the beginning of every session, and the dainty little missives are distributed through the senate postoffice. STRAY THOUGHTS.

Love quotes poetry while acting prose.

Even an empty cupboard contains much food for thought.

One of the greatest discoveries of the new century is the means whereby a cure may be had of most any form of liver and kidney trouble, biliousness, sour stomach, sickheadache, and that is found in Hill's Universal Pills, for a full account of their merits write Mrs. Jane Thornton, of Moark, Mo. Your druggists guarantee them; they are mild but effective, price 25c per box.

Although men believe a great many things they know but few.

As an all-around optimist, Cupid is pretty near the real thing.

B. F. Herrin, county clerk of Hardin county, in a recent said: One box Hill's Anti-Malarial Tablets have done more toward toning and building up my system than two bottles of \$1 Sarsaparilla. County clerk Herrin is not the only man who has found more benefit from one 25c box of Hill's Anti-Malarial Tablets than more costly preparations. They are a good tonic and a fine laxative and that is what is needed in restoring lost vigor to an overworked body. Price 25c at all patent medicine dealers in the county.

Matrimonial history often begins where a romantic courtship ends.

The more glasses a man looks through the more queer things he sees.

If a woman is short on beauty, she always imagines she is long on tact.

A merchant of Poseyville, Ind., B. H. Armstrong writes: I have given Hill's Specific to my children for different forms of bowel complaints and find that it stands without an equal as it cured them in each instant almost instantly. Bowel complaints are numerous during the summer months therefore it would be wise to keep a bottle of Hill's Specific on hand for emergency in each household during the summer. It is healing and soothing to the bowels, pleasant to take but effective. Price 25c at all patent medicine dealers in the county.

Religion has done much for morality, but the fear of being found out has done more.

It is easy to acquire knowledge if you are not ashamed to confess your ignorance.

It doesn't benefit a man much if he happens to be on the right road, but headed the wrong way.

Mrs. J. J. Hancock, wife of Miller at Simpson, Ill., writes: I have used Hill's Anti-Malarial Tablets in our family for past three years and they have always given entire satisfaction. They will cure thin blood, chills, fever, sallow complexion, tired feeling, nervousness, biliousness, foul stomach, sluggish liver, palpitation of heart, ague cake, costiveness, dropsy, lost appetite, dyspepsia, and all diseases that result from malaria. Price 25c, for sale at all dealers in patent medicines in the county.

An old bachelor says that the most prolific source of a woman's worries is her inability to think of something to worry about.

The best pill 'neath the stars and stripes. It cleanses the system and never gripes. Little Early Risers of wordly repute—Ask for DeWitt's and take no substitute.

A small pill, easy to buy, easy to take and easy to act, but never failing in results. DeWitt's Little Early Risers arouse the secretions and act as a tonic to the liver, curing permanently.

R. F. Haynes.

It is easier to cure a Kentucky colonel of the elbow-crooking habit than it is to cure a man who gets into the habit of thinking he is funny.—Chicago News.

The Stomach is the Man.

A weak stomach weakens the man, because it cannot transform the food he eats into nourishment. Health and strength cannot be restored to any sick man or weak woman without first restoring health and strength to the stomach. A weak stomach cannot digest enough food to feed the tissues and revive the tired and run down limbs and organs of the body. Koloid Dyspepsia Cure cleanses, purifies, sweetens and strengthens the glands and membranes of the stomach, and cures indigestion, dyspepsia and all stomach troubles. R. F. Haynes.

Cautious in the Business.

The reasons which lead men to choose a certain trade or profession are often perhaps no more sensible than the reason the boy in the following story from a New York paper gave for wanting a place in a bank. The president of a bank told the story at his club.

"I don't think I ever told you of our redheaded office boy, Brickbat," remarked the bank president after the rest had each told a story.

"Never did," was the answer.

"Well," continued the speaker, "he came to me with recommendations from his father, who was a schoolmate of mine up in Steuben county. After I read the note from the father I told the boy to take off his hat, sit down in a chair and tell me why he wanted to be a banker. His answer was: 'Cause I'm good at multiplying.'"

"Well," said I, "can't you subtract and divide too?"

"Oh, yes," he said, "but because a banker wants to make all he can I thought you wanted a boy who could multiply."

"I hired him on the strength of that."

What's in a Name?

Everything is in the name when it comes to Witch Hazel Salve. E. C. DeWitt & Co., of Chicago, discovered some years ago, how to make a salve from Witch Hazel that is a specific for piles. For blind, bleeding, itching and protruding piles, eczema, cuts, burns, bruises and all skin diseases, DeWitt's Salve has no equal. This has given rise to numerous worthless counterfeits. Ask for DeWitt's—the genuine. R. F. Haynes.

Really a Professor.

"I beg your pardon, doctor," said the toastmaster after the dinner was over, "for introducing you inadvertently as 'professor.'"

"That's all right," replied the principal speaker of the occasion. "The title fits me better than 'doctor' does. I profess to be a doctor, but I get mighty little practice."—Chicago Tribune.

Positively Brutal.

"Let me see," mused the young wife as she picked up the cookbook. "I have mixed the batter for the angel cake. Now what do I do next?"

"Telephone for the doctor," answered the heartless husband, who happened along in time to overhear her musings.

Working Overtime

Eight hour laws are ignored by those tireless, little workers—Dr. King's New Life Pills. Millions are always at work, night and day, curing indigestion, biliousness, Constipation, Sick Headache and all Stomach, Liver and Bowel troubles. Easy, pleasant, safe, sure. Only 25c at Woods & Co's drugstore.

Tragedy Averted

"Just in the nick of time our little boy was saved" writes Mrs. W. Watkins of Pleasant City, Ohio. "Pneumonia had played and havoc with him and a terrible cough set in besides. Doctors treated him, but he grew worse every day. At length we tried Dr. King's New Discovery for Consumption, and our darling was saved. He's now sound and well." Everybody ought to know, it's the only sure cure for coughs, colds and all lung diseases. Guaranteed by Woods & Co., druggist. Price 70c and \$1. Trial bottles free.

HIDDEN TREASURE.

One Thousand Dollars Found in Webster County.

The Dixon Journal says: It is reported that James Mooney, of near Stanhope, this county, unearthed \$1,000 in gold while digging post holes on the farm of Wm. Gardener, about eight miles southeast of Dixon. Gardener and Mooney were working together, digging post holes. Gardener, working with a spade, was digging to where the dirt became hard and Mooney was following with a post hole digger, completing the holes. Gardener's attention was called by some reason to Mooney, who was down on his knees some five or six holes in the rear. Going to where Mooney was he (Gardener) discovered that his employe had struck a gold mine and was taking \$20 gold pieces from the unfinished post hole. Upon counting it he found that there was \$1,000. Mooney pocketed the money and refused to divide with the owner of the land. From the position of the money it is supposed that it was buried in a tin or wooden vessel.
